Pricing Guide

NetApp Storage on Equinix Metal is storage-as-a-service fully hosted and operated by Equinix. Customers pay for usage per month, with minimum commits for capacity and 1-year term.

Includes:

- Use of single-tenant NetApp appliance(s), proximate hosting and spineleaf networking between Equinix Metal compute and storage.
- Operation and maintenance of the storage appliance(s).
- 24/7 support by Equinix for hosting and networking, with available support from NetApp for storage-specific issues.

MAXIMIZE PERFORMANCE

Maximize your data performance and capacity with state-of-the-art, NetApp storage solutions so your mission-critical workloads are available whenever you need them

RANGE OF TIERS

Choose from the broadest range of performance tiers to reallocate volumes on demand and deliver consistently predictable performance.

PAY AS YOU GROW

Pay-as-you-grow solution mitigates risk with a seamless hybrid cloud experience and built-in security.

NetApp sizes are based on TiB. Multiply TiB by 1024 to convert to GiB. All pricing below is listed per GiB per month. Additional usage of NetApp Storage on Equinix Metal above the committed amount is billed at the same rate as that of Customer's committed rate.
